

16th December 2021

18:45–19:45

IDENTIFY AND TREAT LOST TO FOLLOW-UP PATIENTS WITH HCV DIAGNOSIS

The experience of

Fondazione
Epatocentro Ticino

Dear Colleagues,

On behalf of the Fondazione Epatocentro Ticino it is our pleasure to invite you to our LOST TO FOLLOW-UP patients with HCV diagnosis webinar.

HCV is a potentially deadly disease and Epatocentro Ticino has always pursued the goal to cure and control this infection. In order to achieve this, it is crucial to tackle all infected patients and to follow them up until complete eradication is reached. We would be delighted to share the experience of Epatocentro Ticino with you and welcoming you to an exciting virtual presentation and interactive Q&A session.
